Mission Statement

Powerstown Educate Together National School.

Powerstown Educate Together provides a friendly, safe, inclusive, learning environment that welcomes pupils of all ethnic, social, religious and cultural beliefs. Children are encouraged to respect and welcome diversity in our school and in our wider community. A variety of cultures, traditions and festivals are celebrated by all pupils throughout the school year.

Staff work collaboratively together to enable children to develop to their full potential physically, intellectually, linguistically, emotionally and socially through a child centred curriculum. Pupils are active participants in the learning process and are encouraged to become responsible, respectful, confident citizens, with a good understanding of the democratic process and environmental issues.

At Powerstown Educate Together, parents are recognised as the primary educator of the pupils. Parents are encouraged to participate in daily school life, through the Parent Teacher Association, the Board of Management, adult classes and pupil-parent workshops and activities.

Powerstown Educate Together National School endeavours to encapsulate our ethos in a democratic partnership, uniquely combining the involvement of parents, community members and pupils with the professional role of teachers.

"Tell me and I'll forget; Show me and I may remember; Involve me and I'll understand."
