Special Ballet Class for children with dyspraxia between the age of 7 and 10 years.

This class is being offered by the Clare Connolly Dance and Ballet School in conjunction with an Occupational therapist as part of a PhD Research study to explore the benefits of ballet for children with Developmental Coordination Disorder / Dyspraxia.

The class will take place in Phibblestown Community centre, Dublin 15, on Wednesdays from 4.00 to 5.00 pm and will run from Wednesday 25th February to June 2015, over two 8 week terms.

The cost of the class will be €70 per term.

What will it involve:

Your child will attend a ballet class taught by Clare Connolly a qualified Royal Academy of Dance (RAD) Teacher with over ten years' experience. The class will be based on a modified RAD curriculum.

The research element of these classes will be carried out by Mairead Dempsey an experienced Occupational Therapist in the area of DCD and Dyspraxia.

If you are interested in your son or daughter joining this class please email or ring Mairead or Clare for more details about what is involved at maighread.dempsey@beds.ac.uk or 0863867959.
