Powerstown ETNS Junior Einsteins

20th April 2014

Dear Parents and Guardians,

Junior Einsteins Science Club teaches children core aspects of Biology, Chemistry & Physics through experiments, practical 'make and do', worksheets and instruction. The pupils take home parent handouts so their learning can continue at home. The '**Junior Einsteins**' make a variety of pieces to proudly bring home such as a model glider, slime, instruments, rainbow glasses and magic tricks! We aim to correspond to and compliment the national curriculum for science.

Some examples of our clubs are; the principals of flight, 'Hair raising' electricity, making slime, how movies are made, Light, Wind, Sound, optical illusions, kite -making, lava lamps, chromatography, dinosaur dig, hovercrafts, Van der Graff generators, bug hunts, to name only a few. At the moment **Junior Einsteins Science Club** can run for 6 consecutive school terms (2 years) without repeating a single topic!

Powerstown ETNS Junior Einsteins Club will:

1. Provide classes on a Thursday starting May 1st
2. Make classes available to pupils in 1st – 5th class in the school
3. Limit each class to 18 participants. (**Please note that 8 pupils are required for the classes to go ahead.**)
4. Teach lessons for 60 minutes
5. Charge just €8 per session. Pay 64 euros in advance to gain a free session!

1st – 5th class will commence on a Thursday from 2:15 – 3:15pm.

How does my child sign up for Junior Einsteins?

- Pupils are to be enrolled on a first come first served basis.
- Each class is limited to 18 people. If there is demand a second class at each level can be added. (After 18 pupils for a class return the booking form, we start a waiting list. This waiting list is used if people drop out and/or is used to compile the next group of 18 pupils for the second class.
- Parents must complete booking form and return it to the school before **Thursday 1st May**.
- The cost is **8 euros per session**. The fees of **64 euros must be paid upfront and if so your child will have 9 sessions for the price of 8 sessions(gain one free session!)**

For more information on Junior Einsteins go Please contact us on 085 8641959 or at junioreinsteinscienceclub@gmail.com. See their website www.junioreinsteinscienceclub.com

Kind regards

Helena Regan
