Dear Parents/Guardians,

As you are aware, photographs, audio and video recordings can be an excellent tool for teaching and learning in the classroom. They can be used to record children's work and track their progress. Viewing photographs, audio recordings and videos of their own work and their peers' work can help students to evaluate and reflect on their learning and to learn from one another. This can help students to set learning targets for themselves, as well as to celebrate their own progress.

We would like to use photographs, audio and video recordings as a teaching and assessment tool in your child's class to enable them to better record and reflect on their learning.

Please sign below to confirm that your child has permission to be involved in this process.

Kind regards

\_\_\_\_\_  
Helena Trench
