

Smart MOVES

Motor Skills Development Programme

In Association with the Dyspraxia Association of Ireland

Supporting Gross Motor Skills and Handwriting for Children with Dyspraxia

Do you work with children with Dyspraxia/ Developmental Co-ordination Disorder?

Or children with special needs ?

Would you like a comprehensive support package to develop the children's movement skills which is fun and easy to use?

If so, then why not attend a one day practical workshop led by Sharon Drew.

On: Sunday Oct.19th

Registration : 9.15 am

Workshop Time: 9.45 am – 3.00 pm.

Venue: Clarion Hotel,Liffey Valley.

Cost: €50 Includes tea/coffee/light lunch

Sharon Drew is an international trainer and a well known author of many practical resources for teachers and therapists in the UK. The Smart Moves Development Programme has been designed to

specifically offer teachers, special needs co-ordinators, parents and therapists a comprehensive tool to help support and develop children's gross motor skills.

This informative and fun workshop will offer participants the ability to:

- Explore the comprehensive Smart Moves programme which will enables them to:
 - Profile children with motor co-ordination difficulties
 - Design a simple, effective and tailored programme for each child
 - Introduce more than a hundred activities and games which can be used as part of a PE lesson, targeted group activities in school, or therapy programme.
 - Monitor, evaluate and reward the progress that each child makes
 - Gain hands on experience of a range of activities and games from the pack.
 - Can't Write Wont Write.....Handwriting issues
- Start Write, fun and practical activity ideas to support fine motor skills.
