| Recount writing  | 1 5 USCUSS   | CT / 2 A                   |                        | children record the data in their own pictogram:  |  |  |

• Discuss the story of Tom's 3 Antarctic expeditions:

Discovery, Terra Nova, Endurance

Teacher: Darragh and Aoife

PETNS Monthly Template: Teacher: Darragh and Aoife Class: 3rd Month: November

- Answer a cloze procedure worksheet on Tom Crean's life orally as a class
- Look & Discuss: view photos of Tom Crean & crew; answer questions relating to it
- Children suggest adjectives that might describe Crean & his crew, add words to our word wall
- Add the Antarctic explorations to our class timeline Antarctic Exploration- Ernest Shackleton
- View pictures of Ernest Shackleton & search for clues about who he was, when he lived and what he did. Use goggles, wooly hat, etc.- clothes he might have worn
- Discuss: why he wanted to go to the Antarctic (wanted to be the 1st to cross continent)
- Consider reasons/motivation for people being interested in Antarctic exploration
- Brainstorm in groups -what do we know about the Antarctic? Write/draw miniboards Locate the Antarctic on the globe & map & state if it's in the north or south
- Discuss what it might be like and how Shackleton might travel there
- Show pictures of the boat Endurance & crew. Discuss, look for details in imagery
- Discuss the different roles/skills; sailors, cook, carpenter, navigator, photographer, scientist, artist, 2 doctors, dog handlers, engineer, captain.
- A journey to/across the Antarctic would take longer in the past than today and would be very dangerous —Why do you think that is?
- Children suggest adjectives that might describe Shackleton & his crew eg. brave, strong, healthy, adventurous, hard working, good team mate, follows orders, good sailor, etc. Create word flashcards/ 'role on the wall' to add to throughout unit.
- View powerpoint file on Ernest Shackleton
   Read fact file on E.S.
- Add the Antarctic explorations to our class timeline

#### Geography:

Fill in a KWL chart on Antarctica, brainstorm in groups -what do I already know?

- -Locate Antarctica on the world globe
- Use maps. Children locate Antarctica

- Concrete materials: create a pictogram chart on the floor with the following headings: laces/velcro/ buttons/zip/ nothing. Children take off one shoe and place it in the correct column. What's the most popular type of footwear? What's the least?
- Block graph: class survey: Who is your favourite author? / What's your favourite food? Children record the data in a block graph and discuss the results
- Bar chart: modes of transport to school/ time spent doing homework over the week. How long does it take you to do your homework in the evening?
   -over 4 evenings? Children record data in a block graph and discuss the results •
- Name chart: children write letters of their name on individual pieces of paper & attach them to a wall chart representing how many letters in everyone's name. Who has the longest/shortest name? Who has 5 letters in their name?

.

| - Uses compass to find North and South - Discuss And name the various Continents - Surround it? Do people live there? What kinds of houses do you trains they have? - Go on a digital trip to Antactica - Children will work in groups of 3 to create projects on Antactica, and the various of the following: - penguins, seals, whales, birds, weather & Climate, landscape - Children will research given topic at home through link to websites from class big Each project must have a title, information organised into sections with subtities, pictures, a fun facts section and a list of group members involved - Children will present their projects to the class when completed - Use videos. March of the Penguins to explain the cycle of their existence - Discuss the summer and winter daylight. How this happens - Disquist sammer and winter daylight. How this happens on Antactica, & the effects on the environment - How glaciers affect the surface of the earth: What happens when glaciers break off? Lead this to iceberg. Use recent event of an iceberg breaking off from Antactica Create an iceberg in class. Fill a balloon with water, leave overnight in the freezer. Take it not the balloon the next day & submerged in each. What is the difference between the two? Why?  - Mark water level in each. What is the difference between the two? Why?  - Mark water level in each basin. Let the iceberg met & note the change in water level to ocean water levels & global warming - Compited an online quiz on penguins, polar explorers and Antactic animals  - The Arts  - Visual Arts - Mussic - Drama  - Drama - The Arts - Drama - | 177 | PETNS Monthly Template: | Teacher: Darragh and Aoife  | Class: 3rd Month: | November | The state of the s |

# **Antarctica**

Teacher: Darragh and Aoife

#### Visual Art:

- Clay penguins
- View photographs of the emperor penguin and discuss its shape
- Class brainstorm on how to start- I record suggestions on board & draw basic shape
- Each child gets their own piece of clay. I model & the children copy: squeezing, pinching, pulling, squashing, prodding, rolling and re-forming a small ball of clay, tearing pieces from the clay and putting them together again without a noticeable joining
- Children consider what position their penguin will be in and what it is doing: swimming, standing, walking, keeping their eggs warm
- They can sketch their ideas on paper if they need to
- Children create their own penguin out of clay
- Children look and respond to some children's work by sitting in the artists chair
  - Chalk Aurora Borealis
     View photographs of the aurora
     Introduce our art activity by showing the
     children some examples
     Each child gets a piece of paper and begins to
     draw their picture using a pencil
     They go over their pencil lines with white chalk
     Children use coloured chalk to create the
     aurora.

Reflect on their own artwork and the artwork of their peers

## **Painting**

- Look and respond to various paintings of Antarctica
- Discuss paints/ brushes/ techniques
- A4 sheet; paint using mixing to create an antarctic background
