Transferring to Autism Class in Secondary School

Dear Parents / Guardians,

When children complete 6^{th} class in primary school they are required to transfer to Secondary School.

It is the duty of parents/guardians to find a suitable second level school for their child

Please find below a list of secondary schools in the Dublin 15 area with Autism Classes and their contact details.

Most secondary schools complete registration in October of the year **before t**he child transfers to secondary school. Therefore we recommend that parents explore their options of secondary schools before their child completes 5^{th} class.
